

**Truesdale Lake Property Owners Association discount price:**

**Pumping cost is @ \$280.00 for anything up to 1000 gallons (over 1000 gallons is prorated by 250 gallons increments) \$70.00 per 250 gallons.**

**Digging if necessary is a minimum of \$35.00 depending on depth and difficulty. Technician will advise of price before digging.**

**There is a \$19.50 environmental disposal fee.**

**This cost is subject to State tax.**

**You must be home at time of pumping. We ask you to run the water/flush toilet. The technician will check the condition of the tank, the inlet and outlet baffles, the operating level and flow of the water. We inform you of how your system is operating and give you a check list receipt for your records and we keep all of your records in our computer system. We also send you a postcard every two years to remind you to maintain your septic tank.**

**We are a full service company therefore all of yours septic repair needs can be addressed.**

**When you do schedule a date, you can call on the date of the pumping any time after 8:30 am to find out if it will be an am/or pm job. We accept cash, check or credit card at the time of service.**

**Please note: this cost cannot be combined with any other discount or offer.**

**Hours of operation: Monday through Friday.**

**Any emergency service cost would be additional.**

**Thank you and I hope to hear from you soon.**
